

Required Parts Per Stake:

- Pixel Stake Plastic
- Intelligent Pixels 8ct
- Ground Stake

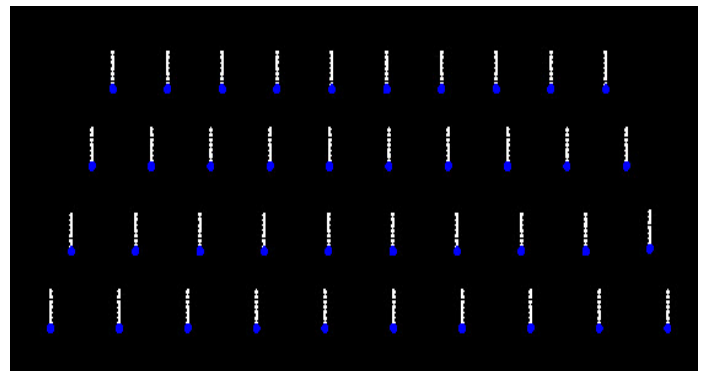

Step 1: Insert Pixels

Starting with the male plug end insert the 8ct pixels into the pixel stake plastic starting at the bottom. You can use zip ties to secure the pixels but most of the time this is not necessary.

Step 2: Install Stakes

There is timing in WowLights Sequences for 4 rows of 10 pixel stakes. Row 1 is in the front and they should be connected from left to right. They can be secured to the ground using ground stakes.

Step 3: Configure Controller

The Pixel Stakes can either be setup by themselves on a Pixie 4 controller or can also be setup on a shared Pixie 16 controller.

Pixie 4 Controller Setup:

Controller # 1F – 0001 1111
(Switches 4, 5, 6, 7, 8 ON, all others OFF)

Pixie 16 Controller Setup: (Shared with RGB Candy Canes, Wreath, Floods)

Controller # 15 – 0001 0101
(Switches 3, 6, 8 ON, all others OFF)
Pixel Stakes connect to outputs 11-14
