

**FRONT  
VIEW**

**Components Needed:**

- Shamrock Plastic
- RGB Controller
- 1 Intelligent Pixel Strand 50ct
- 1 Intelligent Extension

**Step 1: Install Lights**

From the back (picture to the left shows front view) begin pushing the lights through the corrugated plastic following the path as shown.

Always start with the beginning of the strand which is the end with the male plug.

Each Shamrock will use one 50ct strand.

**Step 2: Connect Shamrocks to controller:**

Connect Shamrocks to the controller left to right starting on output #1 and ending on output #4.

**Step 3: Setup Controller**

There is timing in WowLights V2 Pro Plus St Patrick's Sequences for 4 Shamrocks on a RGB Pixie Controller ID #01. You can set the ID using the switches on the board:

Controller #01 – 0000 0001 (Switch ON, all others OFF)
